Iris Floor Lamp

By MacMaster

Description

The Iris Floor Lamp consists of curved laminations of timber that echo the shape of Iris leaves to create a sculptural, unique and impacting form. The arrangement of leaves give the lamp a structured yet organic form that allows light to graduate upwards on the interior of the lamp. An energy saving light bulb is utilized for a warm ambient light that casts subtle shadows onto adjacent walls, thereby extending the visual depth of the design available in Oak or Walnut finish. On/off foot switch on cord.

Specifications
