

BRAND Philips Consumer Lighting

DESCRIPTION

The Guidelight Bee is a portable battery operated LED lamp with a soft glow that's bright enough to guide people in the dark. It is ideal for use at night when you only need light for orientation. Intense normal light takes time to get used to, hurts your eyes and may even wake up others. A motion sensor automatically turns it on when it's needed, and it switches itself off after a short time. 4.1 inches square x 3.2 inches deep.
