Queen Titania Suspension

By Luceplan

Description

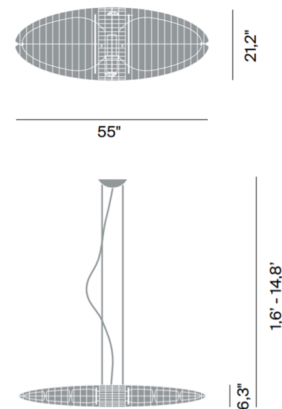

Queen Titania suspension features an aluminum shell and steel bearing structure made up of a sequence of ribs which reflect the source of light. A pair of interchangeable filters allow the body of the lamp to change color without interfering with the emission of white light. Two 250 watt, 120 volt, T10 medium base frosted lamps are required, but not included. Optional filters in yellow, light blue, violet or pink and counterweight suspension kit sold separately. UL listed.
