

# Monorail End Power Feed

**Description:**

Pair of end feed connectors brings power to a Monorail system when the transformer cannot be located directly above the run. The power feed can be mounted to a standard 4 inch junction box with round plaster ring (provided by electrician), directly to a remote transformer or to a Kable Lite surface transformer (sold separately). The end power feed pushes into an end of the Monorail and includes a removable 4 inch round canopy and 12 feet of field-cutttable softwire leads. Finish in Satin Nickel or Antique Bronze. ETL listed. 4 inch width x 4 inch height x 144 inch length.

Shown in: Satin Nickel
