DESCRIPTION

The OJ Table Lamp emits soft, comfortable, and glare-free light. The shade design seeks to create soft, decorative illumination of the top and bottom of the shade, giving the impression that the light is being squeezed out of the openings. The thickness and surface of the shades retain the light, thereby creating the perception that the shade is illuminated from within. A detail that is achieved in part due to the textured of the surface. The angle of the shade concentrates the light, providing channeled reading light. One 13 watt 120 volt GU 24/Compact Fluorescent bulb is required, but not included. Dimensions: 10.6 inch width x 19.1 inch height.
