Madagascar Path Light

By Auroralight

Description

Madagascar path light features a copper diffuser and glass lens in a versatile outdoor luminaire. The flared conical-shape shade finishes at the top in a brass pinnacle. The graduated brass lens holder at the top of the copper stem and the substantial cylinder-shape brass base evoke the overall elements of style and practical features of this fixture. Built-in mechanism for easy on-site adjustment of lamp position. Optional directional reflectors available in 90, 180, 240 or 300 degree beam spread. Ground stake assembly included. One 10 Watt 12 Volt Tungsten G4 halogen Bipin lamp included. 5 or 20 Watt lamping also available. Xenon lamping option available. 12 Volt remote transformer required, not included. General light distribution. UL listed for wet locations. 4.25 inches wide x 18 inches high.
