

Low Voltage 2.5IN Remodel NIC Housing for Cabinets

**Description:**

3 Inch Low Voltage Housing is a low profile for use in wood cabinets, displays and similar wooden applications. Non-IC designation requires minimum 3 inch clearance on all sides of housing when insulation is present. Housing is 20 gauge galvanized steel, painted black. Electrical components within the can are a bi-pin ceramic socket with nickel plating and 18 gauge Teflon insulated wires with fiberglass sleeves. Integral wiring compartment with standard size knock out hole on top. Handles mounting surface thickness up to 0.75 inch. 3 inch ceiling cutout. UL listed. Requires one 35 watt, 12 volt MR16 halogen lamp, not included. Requires remote Class II electronic transformer and HR-837 trim, sold separately.
