

### BRAND

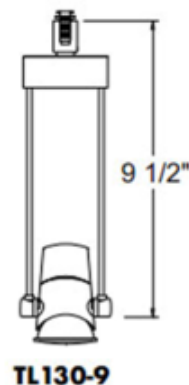

Juno Lighting

### DESCRIPTION

TL130 Trapezia MR16 Track Fixture suspends the MR16 lamp down from the track with the grace of a trapeze artist. Slender tubes conceal lamp lead wires feeding into an elegantly sculpted die-cast lamp housing. The light airy appearance is great for display, exhibition and gallery lighting. The downward reach can make pendant mounting of trac unnecessary. Features 90 degree vertical aiming capability and 358 degree rotation. May be used with up to two 2 inch accessories and/or barn doors simultaneously with the Accessory Holder, sold separately. One 50 watt, 12 volt MR16 bulb with covered glass lens is required, but not included. A lensed MR16 is required except when combined with the 2 inch accessories. UL listed. Compatible with Juno Lighting Trac 12 and Trac 12/25 low voltage track systems. Note: This is a discontinued model and limited to quantity on hand.
