Talo Wall Light

By Artemide

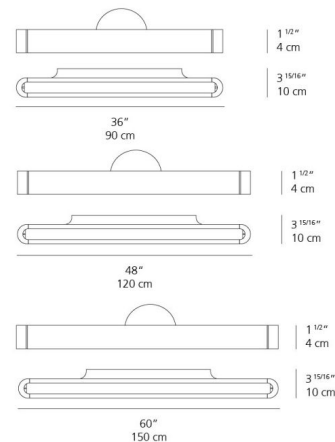

Description

Elevate your interior walls with the Talo Wall Light, a beacon of modern design and functional illumination. This sleek fixture, part of the renowned Talo collection, delivers sophisticated up-and-down light, perfect for creating dynamic visual interest and enhancing ambient brightness. The Talo Wall Light showcases a meticulously crafted painted aluminum body, framed by refined die-cast aluminum end caps, emphasizing its robust construction and minimalist aesthetic. Its design integrates seamlessly against any rigid wall surface, offering a clean, architectural presence. Equipped with both upper and lower diffusers made from high-quality transparent polycarbonate, the Talo casts light both upwards and downwards, creating a beautiful wash of illumination that highlights wall textures and adds depth to your space. This dual light emission provides a soft, inviting glow without sacrificing brightness. Customers frequently seek wall lights that offer architectural appeal and effective ambient lighting, and the Talo Wall Light excels in both, making it an excellent choice for hallways, living rooms, bedrooms, or as an accent in contemporary commercial settings.
