

319-0006 350mA 1W LED Driver

**Description:**

Universal input 350mA constant current 1 watt LED driver is one of the world's smallest line voltage LED drivers in today's market. The extremely compact size allows the lighting and fixture designer the freedom and flexibility to either locate the driver inside a Jbox, inside a canopy or even directly at the fixture head. This driver can also be used to power 300mA 1W LEDs. Features extremely long life operation, overload protection, output over voltage protection, isolated output for additional safety and meets NEC 411 code and UL2108 for low voltage lighting requirements 1.785w x 1.04h.
