DESCRIPTION

PN5 5 inch Non-IC Air-Tight new construction housing is a specification grade residential housing that accepts fluorescent, low voltage halogen and line voltage incandescent lamp modules and elements (trims). For use with narrow joist spacing. Air-Tight to prevent energy loss, room drafts, dust marks on ceiling, and reduce sound transmission. Insulation must be kept 3 inches away from side and top of the housing. A complete fixture requires a platform (housing), lamp module, and 5 inch optical element (trim), sold separately. UL listed. Damp location listed. IBEW union made. Lamp ratings based on trim selected, sold separately.
