

BRAND

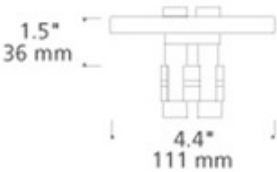

Tiella

DESCRIPTION

A dual feed canopy is mounted to the ceiling above the rail run. It brings power to the rail run from a dual feed remote transformer (sold separately). The low voltage leads from the remote transformer are connected to the canopy leads inside the junction box. Finish in Bronze or Satin Nickel. This product can mount to either a 4 inch square electrical box with round plaster ring or an octagon electrical box (not included). The shortest rigid standoff that can be used with a dual feed canopy is the 2 inch rigid standoff (sold separately). If dropping the rail more than 2 inches below the ceiling, order the desired rigid standoff length and two compatible power extenders (sold separately). ETL listed. 4.4 inch diameter x 1.5 inch height.
