Rail Single Power Feed Canopy

By Tiella

Description

A single feed canopy is mounted to the ceiling above the rail run. It brings power to the rail run from a single feed remote transformer (sold separately). The low voltage leads from the remote transformer are connected to the canopy leads inside the junction box. This product can be mounted to either a 4 inch square electrical box with round plaster ring or an octagon electrical box (not included). Finish in Bronze or Satin Nickel. The shortest rigid standoff that can be used with a single feed canopy is the 2 inch rigid standoff (sold separately). If dropping the rail more than 2 inches below the ceiling, order the desired rigid standoff length and one compatible power extender(sold separately). 4.4 inch diameter x 1.5 inch height.

Specifications
