

BRAND PureEdge Lighting

DESCRIPTION

Inline LED snaps easily into the low-voltage Flex Strip system and uses Nichia .5 watt, warm white LEDs. 2, 4 and 12 inch modules snap into the Flex Strip system instead of using the standard 3 watt or 5 watt festoon type lamp. Inline LED 12 inch modules consume only 8 watts per foot at 204 lumens compared to 37 watts per foot of Xenon Festoon type lamps. The remote PS-LED-100-24DC or PS-LED-600-24DC power supply is dimmable with a standard Lutron NTFTV-WH dimmer and can power up to 70 feet of Flex Strip. Applications: cove, undercabinet and display lighting.
