

**BRAND**

Halo

**DESCRIPTION**

ML706 6 inch LED module are designed for retrofit applications with an Edison screw base adapter (included) for use in an existing housing or may also be used in a new construction application with the dedicated LED H750 series housings. The LED module exceeds the light output and distribution of a 65 watt BR30 incandescent lamp or an 18 watt compact fluorescent lamp, while consuming less than 14 watts. It is designed for dimming capability to 15 percent in normal operation with a standard 120 volt LED rated electronic low voltage, and many incandescent, dimmers. Features 50,000 hour lamp life at 70 percent lumen maintenance, 80 CRI, and four color temperature options (2700K, 3000K, 3500K, and 4000K). Trim sold separately. UL listed. Damp location listed. Wet location listed with select trim options.
