

BRAND Lightolier by Signify

DESCRIPTION

IntelliSight sensor dimmer in white is a designer-style, multiple-detection, universal voltage occupancy sensing wall dimmer designed to accept and control universal voltage - 120VAC to 277VAC, 60Hz and rated to control up to 1000 watt lighting loads. Capable of handling incandescent, quartz halogen, electric low-voltage, magnetic low-voltage, fluorescent non-dimming ballasts, general inductive, neon and cold cathode loads. Passive infrared to read and detect occupants body heat and movement, enhanced PIR with Digital Signal Processing, DSP to read and detect occupancy throughout the entire space and photo detection to sense human motion and help differentiate this signal from other sources such as hot air vents. Available in White and Ivory.
