

BRAND PureEdge Lighting

DESCRIPTION

3 Channel DMX Control RGB LED Driver is an easy to configure direct voltage controlled driver/controller for low power, indoor LED lighting applications. Can be integrated in a network or used as a standalone device. Controllers allow the upload of a show sequence for use in standalone mode. You can create and manage your own show sequences with the Toolbox and freely available PC software. DMX, DALI and 0-10V dimming and color control. 3-button user interface with LCD display. The easy to navigate menu allows you to set parameters such as the number of channels, DMX or DALI settings for network mode and show, color, dim values for standalone operation. Lock the driver's configuration and perform a test run of the connected LED groups. Power Capacity: 12 or 24 volts DC input. 6A per channel (200W: 12VDC or 400W 24VDC). Input Signal: USITT DMX512A, DALI, 0-10V (DALI only for 400W version).
