

Lightology

Berenice 17+17 Table Lamp / Reflector Sold Separately

SPEC #

LPA5597

BRAND

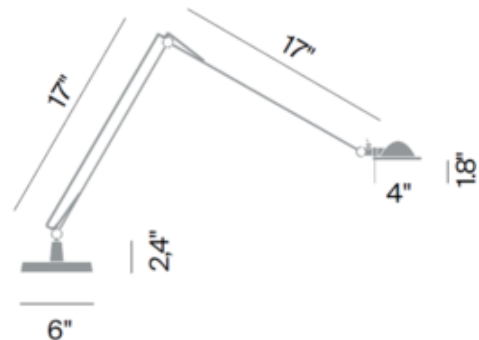

Luceplan USA

DESCRIPTION

The Berenice 17+17 Table Lamp is a light that allows for easy directional orientation in space. Reflector shown in image sold separately in black or aluminum metal or white satin, blue, green, pink, yellow or sage green glass. Structure and base finish in Aluminum. The fluid movement of the jointed arms and the 360 degree rotation of the head make it possible to adjust the direction of the beam. Poised on a sturdy, stable base, Berenice adapts to any situation with versatility and precision. One 35 watt, 12 volt, JC type GY6.35 base frosted halogen bulb is required, but not included. Includes 6 inch base and cord and plug with electronic transformer. On/off switch on head. UL listed. Required reflector sold separately.
