

Maestro Occupancy Sensor with Dimmer

Description:

Maestro switch with sensor features an infrared sensor that automatically controls the light in an area. Controls compact fluorescent, LED, incandescent and halogen load types. The switch with sensor combines Maestro switch with an occupancy or vacancy single pole, multi-location sensor. Adjustable timeout of 1, 5, 15 or 30 minutes. Lights will fade to preset brightness level. High-low sensitivity adjustment. Load capacity is 600W. UL listed. Faceplate sold separately. 2.94 inch width x 4.69 inch height x 1.13 inch length.
