Altrove 600 Wall / Ceiling Light

By Artemide

Description

Transform your space with the captivating dimensionality of the Altrove 600 Wall / Ceiling Light, a truly unique fixture that blurs the lines between illumination and art installation. This architectural marvel features a gleaming perimeter structure in mirror stainless steel, creating a striking frame that reflects its surroundings. The light is diffused through a multi-layered system, including a lateral diffuser in matte finish prismoptic, a reflector in polished aluminum, and a sophisticated front diffuser in engraved transparent methacrylate, all working in harmony to create a rich, layered light effect. This innovative composition provides both stunning visual depth and beautifully diffused illumination. UL listed for safety, and notably ADA compliant when used as a wall sconce, the Altrove 600 offers both high design and practical application. Customers consistently praise its mesmerizing visual depth and statement-making presence. Ideal for contemporary living rooms, grand entryways, or commercial spaces seeking a distinctive architectural and contemporary lighting solution, the Altrove 600 is more than just a light; it's an experience.
