Ibiss Freejack Single Wall Wash Head

By Visual Comfort Modern

Description

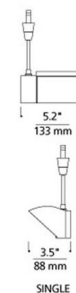

Ibiss Freejack heads are beautiful in their minimalist simplicity and pivot vertically 330 degrees and rotate horizontally 360 degrees. Compatible for use with 1-circuit Monorail track system, Wall Monorail or Freejack canopy. Available in a Flood Edge Lit, Flood Solid and Wall Wash in single or double head versions with four stem lengths. Constructed of die cast aluminum with finish. Includes one 15 watt, 12 volt 2700K or 3000K color temperature LED module. As a general rule when using the IBISS head, it is not recommended using greater than 33 percent of the maximum wattage specified for the low voltage transformer due to the in-rush current requirements. Freejack canopy required if used as a monopoint, sold separately. LED canopy compatible with both halogen and LED lamp options. Dimmer type dependent on system transformer (low voltage magnetic or electronic).
