Vierti 600W Incandescent/ Low Voltage Single Pole Dimmer

By Lutron

Description

Vierti Single Pole 600W/VA Incandescent/Low Voltage Dimmer is available in matte finishes of White, Light Almond, Almond, Ivory, and Taupe. Adaptive LEDs brighten when touched then glow softly when at rest, subtly indicating light level and making the dimmer easy to find in the dark. LEDs are available in Blue, White, or Green. Soft audible feedback confirms the user's touch. Programming allows customized functions. Line frequency compensation maintains stable light levels, despite power line frequency and line voltage variations. 100% factory tested. For use with incandescent/halogen lamping or magnetic low-voltage lamping only. Suggested maximum lighting load for magnetic low voltage dimming is 450W for 600VA products to allow for magnetic transformer loss. 1-gang wall plate included. 2.75 inch width x 4.56 inch height. UL listed.

Specifications

COLOR	Blue
BODY FINISH	White
WATTAGE	600W
DIMMER	Standard 120V
DIMENSIONS	2.75"W x 4.56"H
BULB	N/A
