Lutron

**DESCRIPTION**

Vierti Multi-Location 600W/VA Incandescent/Low Voltage Dimmer is available in a White matte finish. Adaptive LEDs brighten when touched then glow softly when at rest, subtly indicating light level and making the dimmer easy to find in the dark. LEDs are available in Blue. Soft audible feedback confirms the user's touch. Programming allows customized functions. Line frequency compensation maintains stable light levels, despite power line frequency and line voltage variations. 100 percent factory tested. For use with incandescent/halogen lamping or magnetic low-voltage lamping only. Suggested maximum lighting load for magnetic low voltage dimming is 450W for 600VA products to allow for magnetic transformer loss. For multi location dimming, use Vierti companion dimmers, sold separately. Not for use with mechanical 3-way or 4-way switches. 1-gang wall plate included. 2.75 inch width x 4.56 inch height. UL listed.

<b>SHADE COLOR</b>	Blue
<b>BODY FINISH</b>	Matte White
<b>WATTAGE</b>	600W
<b>DIMMER</b>	Dimmable
<b>DIMENSIONS</b>	2.75"W x 4.56"H
<b>LAMP</b>	N/A
