DESCRIPTION

Vierti 600W Electric Low Voltage Multi Location Dimmer is available with a matte finish in White, Light Almond, Almond, Ivory, Taupe, and Black. Adaptive LEDs brighten when touched then glow softly when at rest, subtly indicating light level and making the dimmer easy to find in the dark. LEDs are available in Blue, White, or Green. Soft audible feedback confirms the user's touch. Programming allows customized functions. Line frequency compensation maintains stable light levels, despite power line frequency and line voltage variations. 100 percent factory tested. For use with electric low-voltage lamping up to 600 watts only. For multi location dimming, use Vierti companion dimmers, sold separately. 1-gang wall plate included. 2.75 inch width x 4.56 inch height. UL listed.
