- This product is wall mounted only.
- This product can mount to either a 4" square electrical box with round plaster ring or an octagon electrical box.
- This instruction shows a typical installation.

**SAVE THESE INSTRUCTIONS!**

### Install the Fixture

**1:** Rotate the Cody's head perpendicular to the arm making sure the arm is completely inserted into the head swivel connector. Tighten the M3 set screw on the swivel connector with the provided 1.5mm Allen wrench to secure the head in place.

**2:** Insert the loose arm assembly (provided in the box) into the other swivel connector, insert the joining arm into the mounting bracket of the first arm. Tighten the M3 set screw on the swivel connector and mounting bracket with the 1.5mm Allen wrench.

**NOTE:** The Cody 12" canopy mount must be installed right above the electrical box.

- 3:** Hold the two mounting brackets against the wall above the electrical box. Using a level, align the mounting brackets and mark the four bracket holes on the wall.
- 4:** Tap the anchors onto the marked points into the wall up to the threaded portion with a hammer.
- 5:** Screw the threaded portion of the anchors in with the a Phillips screwdriver.

- 6:** Connect the white LED power supply wire to the neutral power wire with a wire nut.
- 7:** Connect the black LED power supply wire to the hot power wire with a wire nut.
- 8:** Place the LED power supply and all wire connections inside the electrical box.

- 9:** Mount the crossbar assembly to the electrical box holes with the provided #8-32 screws.

- 10:** Line up the mounting bracket holes with the anchors and secure the fixture to the anchors with the four #8 screws provided.

**11:** To adjust the height, loosen the four M4 set screw on the mounting brackets with the provided 2mm Allen wrench. Adjust the Cody to the desired height by sliding it up or down. Tighten the four M4 set screws with the 2mm Allen wrench.

- 12:** Connect each low voltage LED power supply wire (red wire) to one fixture wire with a wire nut.
- 13:** Place the excess wires and wire nuts inside the electrical box.
- 14:** Line up the canopy cut out edge with the fixture wires. Place the canopy onto the electrical box and tighten the thumb nut to the crossbar assembly nipple.

**15:** Hang the frame cable into the two mounting bracket slots.

**16:** Rotate the fixture head to properly wash the picture with light.

**NOTE:** The Cody 12" contains **12** watt integrated LED lamps. These lamps are rated for 50,000 hours.
