

Installation Instructions for Marilyn Moods Round & Square RGB

IMPORTANT INFORMATION

- This product is wall mounted only.
- This instruction shows a typical installation
- The RGB LEDs are controlled by a wireless controller (included) for light intensity, show & color modes.

SAVE THESE INSTRUCTIONS!

Install the Backplate

1: Remove the two Phillips screws from the sides of the backplate.

2: Carefully lift the mirror.

NOTE: It is recommended that one person holds the backplate while the electrician installs it.

3: Align the backplate center hole with the electrical box. Level the backplate horizontally and mark the four key holes onto the wall.

4: Remove the backplate.

5: Use a 9/32 drill bit to make holes on all four marked points.

6: Tap the anchors into the drilled holes with a hammer.

7: Tighten (not completely) the four #8 screws into the anchors leaving the head unscrewed for 1/8".

8: Feed the power wires coming from the electrical box through the backplate center hole.

9: Hang the backplate keyholes onto the exposed screws.

10: Tighten the four #8 screws completely to secure the backplate in place.

11: Make sure that the backplate is grounded in accordance with local electrical codes.

12: Connect one power supply wire (either one to hot & the other one to the neutral power lines with wire nuts.

13: Place all wires and wire nuts inside the electrical box.

14: Align the mirror brackets to the backplate brackets. Place the mirror into the backplate and tighten the Phillips screws to secure the mirror in place.

15: Turn the mirror on, using the wireless controller. Refer to the controller functions below for more details.

NOTE: Each Mirror contains 36 watts of LED.
