Description:

Commercial-grade 24 volt Soft Strip provides high levels of light with high CRI LEDs, offering superior color rendering and enhanced color. LEDs are distributed close together for uniform illumination without hotspots. The 1/2" wide flexible copper strip, with an optically clear protective coating, is sold in 1 ft increments up to 40 feet with cutting increments every 2.4 inches. Snap & Light Power Connector is required and is sold separately (pages 4-5). Additional Snap & Light Connectors (pages 4-5) are available for making custom configurations. At only 2.5 system watts per foot, this 24 volt system dims with an electronic low-voltage or 0-10V dimmer (sold separately). Self-adhering SS2C mounts to most smooth finished surfaces with industrial strength 3M tape (provided on back of strip); some unfinished surfaces may require screw-in mounting clips (sold separately). Designed for indoor/damp locations. Soft Strip is compatible with solderless Snap & Light Connectors. Fixtures include a 5 year warranty.

Applications:

Indoor/Damp Location - Cove, retail, hotel and display. ETL listed to conform to UL 2108 for closet and under-cabinet applications.
