Side View

Description:

Accepts input voltage of 120VAC and outputs 24VDC power up to 25 watts. Can be used as a dimmable or non-dim Power Supply. The low voltage output dims down to 7% when two additional wires are connected to a 0-10V dimmer. The black plastic enclosure provides space for electrical connections. Power Supply features short circuit and overload protection. Indoor applications only.

Applications: Indoor*

*To avoid overheating the power supply, install it in a ventilated remote location where air flows. Maintain proper spacing among power supplies when multiple power supplies are installed in the same remote location.

Power Input:

120 volts AC, 50/60Hz

Power Output:

Class 2; 24 volts DC 1A, 25 watts maximum

Dimensions:

12.4" x 3.12" x 2.18"

Dimmer Type:

Dimmable with Philips Sunrise SR1200ZTUNV, 0-10V dimmer. See fixture spec sheet or dimming chart for additional details.

Product	Wattage	Dimming	Voltage
