Pillar Lite

Cat. No. PIL
Cat. No. PIL/R
Cat. No. PILGU
Cat. No. PILFL
Cat. No. PILMH20

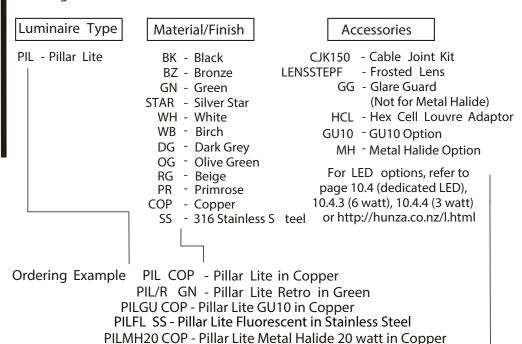

The Pillar Lite illuminates both upwards and downwards, giving columns, gateway pillars and entrances a dramatic effect. The Retro™ is a 110/240-12 ac mains option suited to an installation where mounting a transformer is a problem, e.g. a brick wall where there is only the cable protruding out of the wall and it is not an option to recess the transformer or when replacing an existing light fitting. The base size increases in size to accommodate the encapsulated IP66 dimmable transformer.

This luminaire is machined from a choice of 10mm solid aluminium with a UV stable powder coated finish, solid copper or 316 stainless steel with a clear, tempered, flush glass lens and high temperature silicon gaskets.

A GU10 version of this luminaire is also available for line voltage lamps. The Pillar Lite Metal Halide is extremely energy efficient, outputting 2-3 times the light of a halogen lamp, and uses two GX10 20 watt lamps.
