TRAC 12

Miniature Low Voltage Trac System

QUICK JACK ADAPTER

For QJ Fixtures and Pendants

TLQJA

PRODUCT DESCRIPTION

The Juno Trac 12® Quick Jack adapters are designed to interface Trac 12 systems with Alfa Quick Jack directional fixtures and pendants giving the lighting designer the freedom to choose from an unparalleled assortment of decorative directional fixtures and pendants. Built with the same materials and finishes as the Trac 12® systems, these adapters provide a seamless transition between the trac and the fixtures and deliver the quality and performance you've come to rely on from all Juno Trac products.

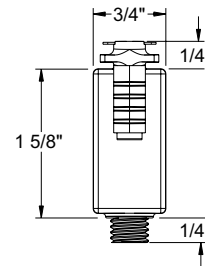

Adapter Construction Adapter may be used with all Juno Trac 12 (TL Series) or Trac 12/25 (TLR Series) series trac systems and Quick Jack directional fixtures and pendants • Adapter housing is constructed of injection molded thermoplastic • Electrical contacts are made from spring temper copper alloy.

Engineering Data Use with 50W max. 12V or 24V lamps.

Labels ETL Certified for US and Canada.

Product specifications subject to change without notice.
