

GREETING YOU WITH LIGHT

Lightology

A LIGHTING APPLICATION, DESIGNED BY GREGORY KAY

CLARO DOUBLE
GANG WALLPLATE
CW-2-WH

SENSOR
SWITCH

LUTRON
DIMMER

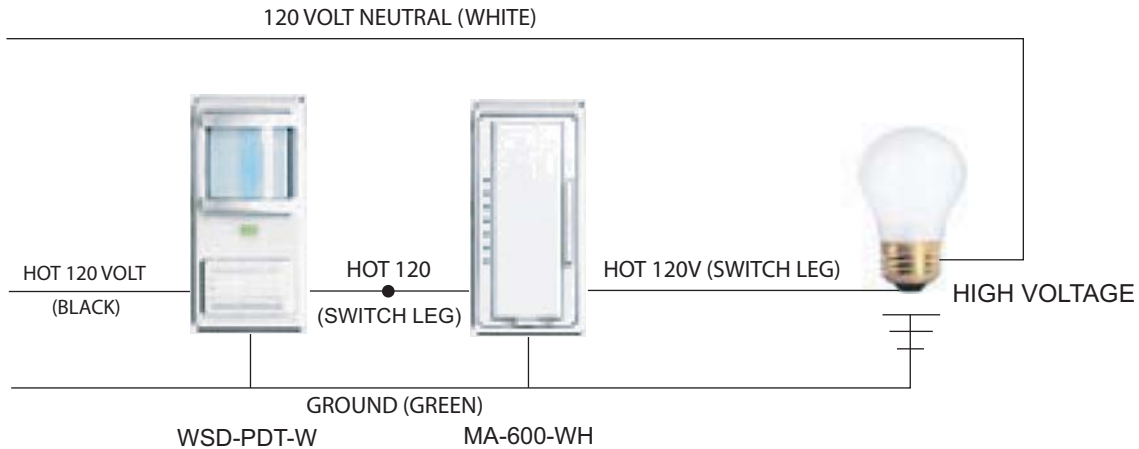

WSD-PDT-W
PASSIVE DUAL
TECHNOLOGY

MA-600-WH - INCANDESCENT SOURCE
MAELV-600WH - LOW VOLTAGE ELECTRONIC TRANSFORMER
MALV-600WH - LOW VOLTAGE MAGNETIC TRANSFORMER

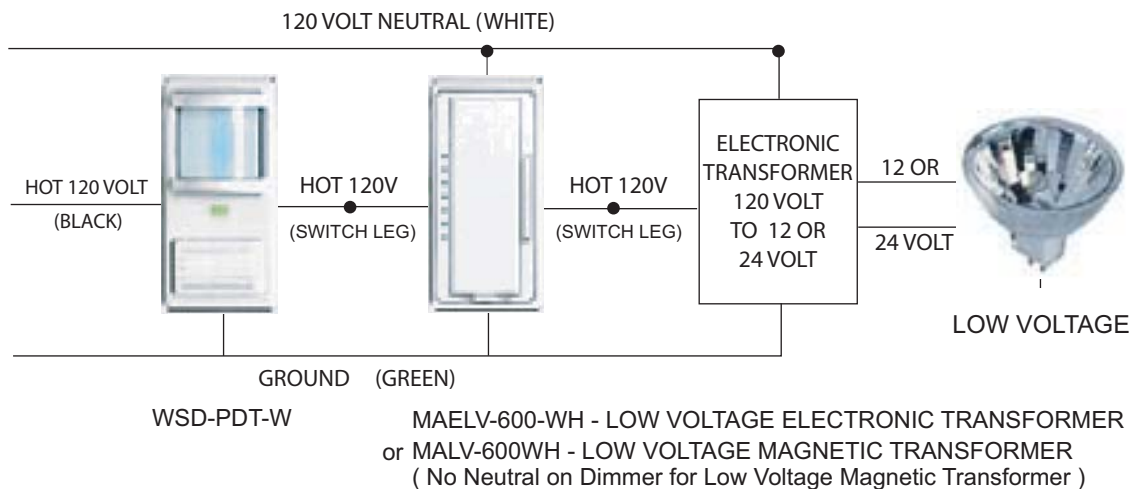

With this elegantly simple technique, lights gently rise to give visitors a dramatic greeting. Readily-available control products can be easily installed by any electrician. Equally effective for interior [entryways, hallways, walk-in closets, restrooms] or exterior use, where it can also enhance security. The secret: combine a dimmer with a motion sensor. Wire the system in series. Connect the main power from your circuit breaker panel to the motion sensor, which triggers the dimmer switch to turn on the lights. To conserve energy, program your dimmer to shut off the lights after an appropriate time.

One specific note for restrooms: be sure to use a motion detector with "passive dual technology" that also senses sound.

120 VOLT
LOAD

12 OR 24 VOLT
LOW VOLTAGE
LOAD

NOTE: For LITETECH brand Electronic Transformer you may use a MA-600-WH Incandescent Dimmer.

Gregory Kay is an accomplished designer of lighting fixtures and applications. He received the Edwin F. Guth Award of Excellence in Lighting Design in 1988. His Lyra suspension fixture won the Citation Of Excellence at NeoCon World's Trade Fair 2002. In 1999, his Symphony chandelier was named Best New Product Design at Lightfair International. He continues to design and innovate as founder and president of Lightology.
