

BRAND Visual Comfort Modern

DESCRIPTION

Two-circuit Monorail center power feed is generally used to power a two-circuit monorail system when the transformer or junction box cannot be located directly above the run. The power feed can be mounted to a standard 4 inch junction box with round plaster ring (provided by electrician) or directly to a remote transformer. The center power feed can be used anywhere within the run and includes 12 feet of field-cutable softwire leads and 4 inch round canopy. Finish available in Satin Nickel. ETL listed. 3.7W x 144L.
