

BRAND Visual Comfort Modern

DESCRIPTION

Two-Circuit Monorail field-cuttable rigid standoff is recommended for curvy runs or runs with heavier elements, such as glass pendants. Rigid standoffs are compatible with various power feed options. Use standoff supports every three feet of Two-circuit Monorail run and at corners. Standoffs can be positioned to cover points where rails are joined. For best appearance place the last standoff 4-6 inches from the end of the rail and place standoffs symmetrically. Finish available in Satin Nickel in a 2 inch length. ETL listed.
