

## 2-Circuit Monorail Adjustable Standoff

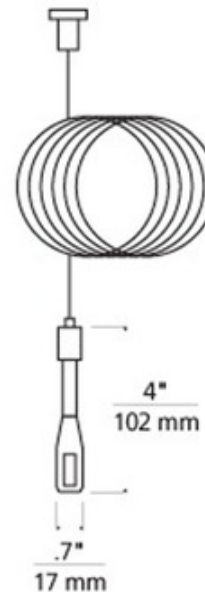

**Description:**

Two-circuit Monorail adjustable standoff's cable virtually disappears for a clean and elegant look. It is best used on fairly straight runs with a drop greater than 6 inches. A wire grip allows you to easily shorten or lengthen the cable to size it for use. Use standoff supports every three feet of Two-circuit Monorail run and at corners. Standoffs can be positioned to cover points where rails are joined. For best appearance place the last standoff 4-6 inches from the end of the rail and place standoffs symmetrically. Finish available in Chrome, Satin Nickel or Antique Bronze. ETL listed. Available with 12 or 30 feet of field cuttable suspensions cable. 0.7W x 4H.

Shown in: Chrome
