

T-Trak Adjustable Standoff with Conductive Connector

Description:

Adjustable standoff with conductive connector is used to join sections of track together end to end while supporting the system. A wire grip allows you to easily shorten or lengthen the cable to size it for use. Adjustable standoffs are not recommended on curvy runs or runs with heavy heads such as die cast metal halide heads. Use conductive type to continue power through connection. Also available in isolating type to isolate multiple circuits on one continuous run. Finish in Satin Nickel or White. ETL listed. Available in 12 or 30 foot lengths.

Shown in: Satin Nickel

List Price: \$113.75
Our Price: \$81.90
