

BRAND

Eurofase

DESCRIPTION

TEIN-325 3.25 Inch 12 Volt IC New Construction Airtight Housing can be used in any ceiling where there is insulation. This housing incorporates a box which creates an air space between the inner fixture and the insulation and can be in direct contact with insulation. Unless there is access from above via the attic, the size of the box makes insulated housings suitable only for new construction applications. Note: A complete fixture requires a housing and trim, sold separately.

Shown in: Aluminum
