

ATOM Wall Remote Control

Description:

ATOM Wall Remote Control is used to control Addressable Track Dimming and Non-Dim On/Off Modules in the track in order to activate programs in the system from a wall location. The wall remote will allow the user to run multiple programmed lighting scenes and to begin and end cycles. A Track Master Module must be used with the Wall Remote Control, in order to control the modules in the system to run the effects. 2.7W x 4.5H x 1.25L.
