**Housing Height:** 6"  
**Aperture Shape:** Square  
**Aperture Size:** 3.300"  
**Product Dimensions:** 3.3 inch aperture

**Designer:** Gregory Kay

**Description:**

Aurora Halogen Square Edge 3.3 Inch Aperture Invisible Trim with IC and Air-Tight Housing is a specification grade, recessed adjustable accent fixture for plaster or drywall construction. A flush mounted rigid plaster plate, which is finished into the ceiling, maintains a flat finish. Combining the knife edge 3.3 inch aperture with the Aurora dome and tilt gear hidden behind the lamps creates a clean internal look. Fixture offers hot aiming with 0 to 45 degree vertical adjustment and 362 degree horizontal rotation without beam clipping. Precision machined gear adjustment is concealed behind the lamp. Features self locking tilt and manual locking horizontal rotation. Includes machined aluminum snoot to control internal light spill. The snoot carries the lamp and two optional light control accessories, sold separately. Includes a soft focus lens. Housing is made of die formed aluminum and includes one 12 volt 75 watt toroidal magnetic low voltage transformer. Housing is IC and Air-Tight, suitable for remodel or new construction. Dome features an anodized soft haze finish. Dome hides electrical hardware and tilts for easy access to junction box and transformer. One 12 volt GU5.3 base MR16 71 watt maximum bulb is required, but not included. ETL listed for recessed installation. Housing: 14.75 inch length x 12.1
