Aurora 2IN SQ Bevel Trimless Downlight / Housing

By PureEdge Lighting

Description

Aurora Halogen 2 Inch Square Aperture Bevel Trimless Downlight with Housing is a specification grade, recessed, adjustable accent fixture for plaster or drywall construction. Trim finish available in Black, White, Satin Aluminum or Satin Bronze. Dome features an anodized soft haze finish. The flush mounted rigid plaster plate, which is finished into the ceiling, maintains a flat finish and secures the removable flush beveled trim. The 3.5 inch square beveled trim raises the 2 inch aperture above the ceiling plane. Combining the Aurora dome with the tilt gear hidden behind the lamp creates a clean internal look. Flangeless, flush trim installs into the plaster plate with a precision snap-fit. Fixture offers hot aiming with 0 to 42 degree vertical adjustment and 362 degree horizontal rotation without beam clipping. Precision machined gear adjustment is concealed behind the lamp. Features self locking tilt and manual locking horizontal rotation. Includes machined aluminum snoot and die formed aluminum back shield to control internal spill light. The snoot carries the lamp and two optional light control accessories, sold separately. Includes a soft focus lens. Housing is made of die formed aluminum and includes one 12 volt 75 watt toroidal magnetic or electronic low voltage transformer. Housing is IC and Air-Tight, suitable for remodel or new construction. Dome hides electrical hardware and tilts for easy access to junction box and transformer. One 12 volt GU5.3 base MR16 up to 50 watts IR (infrared, equal to 75 watt halogen) is required, but not included. ETL listed for damp location, or wet location when used with glass lens accessory LWET. Optional Aurora Gear Cover, LWET accessory, and light control accessories sold separately.

Specifications

REFLECTOR/BAFFLE COLOR N/A
BODY FINISH Satin Black
WATTAGE 50W
DIMMER Low Voltage Magnetic
