Function: Adjustable Accent
Ceiling Type: Drywall Trimless/Flush
Housing Type: New construction IC Airtight
Housing Height: 5"
Aperture Shape: Round
Aperture Size: 2.000"
Product Dimensions: 2 inch aperture

Designer: Gregory Kay

Description:

Aurora Halogen Round Beveled 2 Inch Flangeless Trim with IC and Air-Tight Housing is a specification grade, recessed, adjustable accent fixture for plaster or drywall construction. Trim finish available in Black, White, Haze or Satin Bronze. Dome features an anodized soft haze finish. The flush mounted rigid plaster plate, which is finished into the ceiling, maintains a flat finish and secures the removable flush beveled trim. The 3.5 inch diameter beveled trim raises the 2 inch aperture above the ceiling plane. Combining the Aurora dome with the tilt gear hidden behind the lamp creates a clean internal look. Flangeless, flush trim installs into the plaster plate with a precision snap-fit. Fixture offers hot aiming with 0 to 42 degree vertical adjustment and 362 degree horizontal rotation without beam clipping. Precision machined gear adjustment is concealed behind the lamp. Features self locking tilt and manual locking horizontal rotation. Includes machined aluminum snoot to control internal light spill. The snoot secures the lamp to the pan tilt mechanism and allows for easy relamping. Housing is made of die formed aluminum and includes one 12 volt 75 watt toroidal magnetic transformer. Housing is IC and Air-Tight, suitable for remodel or new construction. Hides electrical hardware and tilts for easy access to junction box and transformer. One 12 volt GU5.3 MR16 50 watt IR (if required, as noted by 75W bulb type) to be specified, but not included.
