

BRAND Matthews Fan Company

DESCRIPTION

Thoughtfully designed to resemble the molecular structure of water, the Atlas Fan Acqua Wood Ceiling Fan is a tribute to Earth's most precious resource, featuring fluid lines and quiet axial rotation. The fan heads can be tilted 180 degrees to adjust axial rotation speed, achieving optimal air movement. The body is made of cast aluminum and heavy stamped steel while the blades are constructed of solid wood. A replaceable LED light provides ambient illumination. A hand-held RF remote control is included and enables fan on/off, 3 speeds, forward and reverse, and light on/off. Optional accessories are sold separately.
