

Nova T 15A GFCI Receptacle

Description:

Nova T 15 Amp 125 volts GFCI (ground fault circuit interrupter - tamper resistant) receptacle is used in places where there is a possibility of short circuiting or electric shock because of wet conditions. The circuit is automatically tripped in these instances. Press test button to confirm LED indicator status. Press GFCI button after circuit interruption to reset. Includes a 1-gang wall plate. The insert is permanently attached (not detachable). Available in architectural Matte White finish. UL listed.
