**DESCRIPTION**

Carambola Table Lamp designed by Oskar Cerezo, takes its title and distinguishing shape from the fruit of the same name. The carambola or starfruit is typically native to countries in the East and rather appropriately, the Carambola light assumes a somewhat Orient-like quality. This lamp enjoys a striking interplay between its white light panels - illumination and wood veneers -warmth. These differing segments of light work together in perfect equilibrium. Available in ivory white wood, natural cherry wood, natural beech wood, yellow wood, orange wood, red wood, blue wood, grey wood, turquoise wood, chocolate wood, or pink wood with LED or CFL lamping. Comes with a 4.7 foot cord. UL listed. Made in Spain.
