

2x300W 12V 2-Circuit Remote Electronic Transformer

Description:

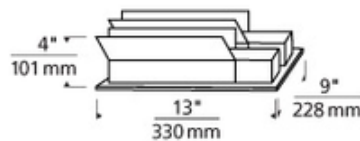

This 2 X 300 watt remote electronic transformer converts standard 120 volt line-voltage to 12 volts, providing the necessary voltage for power a 2-Circuit Monorail low voltage lighting system. Transformer includes fast acting secondary circuit breakers that will safely turn the system off should a short occur. Once the short has been removed, the unit can be reset by simply flipping the wall switch off and back on. Powers lamps totaling up to 600 watts. Transformer must be installed in a remote, but accessible location such as above the ceiling or in a closet, and should be located no more than 20 feet from the required power feed option, sold separately. ETL listed. 13 inch length x 9 inch width x 4 inch height.
