

ASSEMBLY AND INSTALLATION INSTRUCTIONS for the 447261 Fixture

Important Safety information (Please read before proceeding)

1. Remove the fixture, parts and all mounting hardware bags (marked with red tape) from the carton and verify that all parts are present according to the illustration sheet. All parts must be used as indicated. Do not replace any parts, leave any parts out, or use any parts which are worn out or broken. **Failure to follow the instructions could cause a hazardous situation, voids the warranty and violates the U.L. listing of the fixture.**
2. To prevent an electric shock, turn off the main power at the circuit breaker before installing the fixture. **NEVER attempt to install, clean or replace bulbs without shutting off the electricity to the fixture.**
3. **Never use light bulbs with wattage ratings that exceed the fixtures maximum rating.** Always make sure the electric current is turned off before changing the bulbs.
4. If you experience difficulties installing the lighting fixture or it fails to work as expected, please contact a local qualified licensed electrical contractor.
5. Please contact your local Capital Lighting Fixture reseller with any assembly or installation questions. Your local reseller can also provide you with replacement parts for your new fixture.
