Safety Information

IMPORTANT SAFETY INSTRUCTIONS

This portable lamp has a polarized plug (one blade is wider than the other) as a safety feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless plug can be fully inserted. Do not attempt to defeat this safety feature.

Turn off electrical current at the source before working with any lighting fixture or portable lamp.

Install and use this product in adherence with local electrical codes and regulations.

1

FIXTURE PARTS

- A. Lamp Base
- B. Recessed Tube with LED
- C. Glass Tube
- D. Cover Cap (Option 1)
- E. Cover Plate (Option 2)
- F. Female Connector - Electrical Cord
- G. Male Connector -Electrical Cord
- H. Adapter
- I. Polarized Plug

INSTRUCTIONS

1. Remove the lamp and all its parts from the packaging.
2. Screw the glass tube into recessed tube with the LED on the lamp base
3. Either leave the cover cap (as assembled) on the glass tube portion of the lamp or unscrew it to attach the cover plate in its place to achieve the desired aesthetic for the lamp.
4. Connect the male and female connectors of the electrical cords.
5. If necessary, attach the plug attachment to the adapter.
6. Plug the fixture into a functioning electrical outlet to test its functioning.
7. Use the touch switch (not illustrated) to turn the lamp on/off and to change the brightness settings.
