CAUTION-RISK OF FIRE

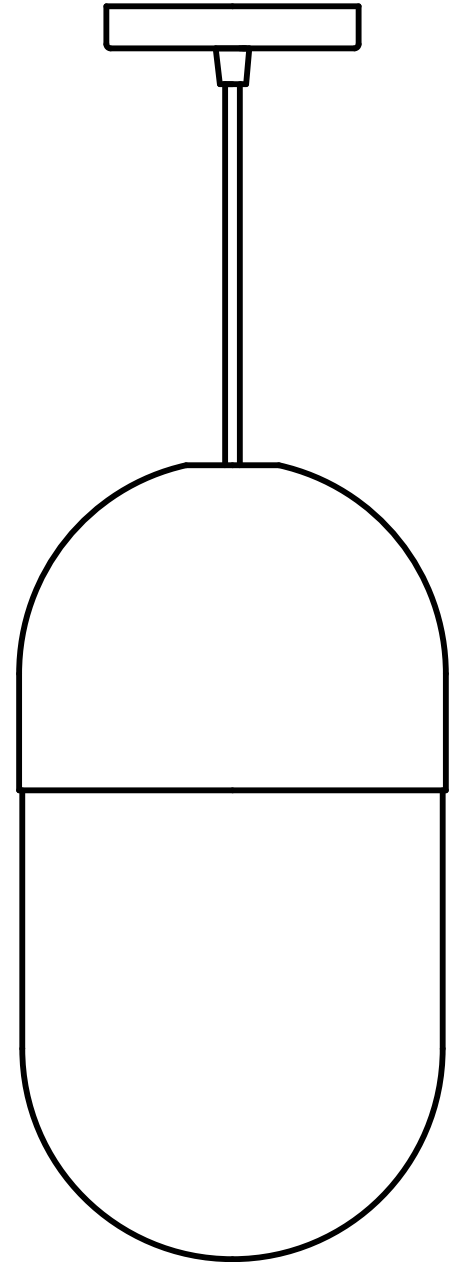

This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.

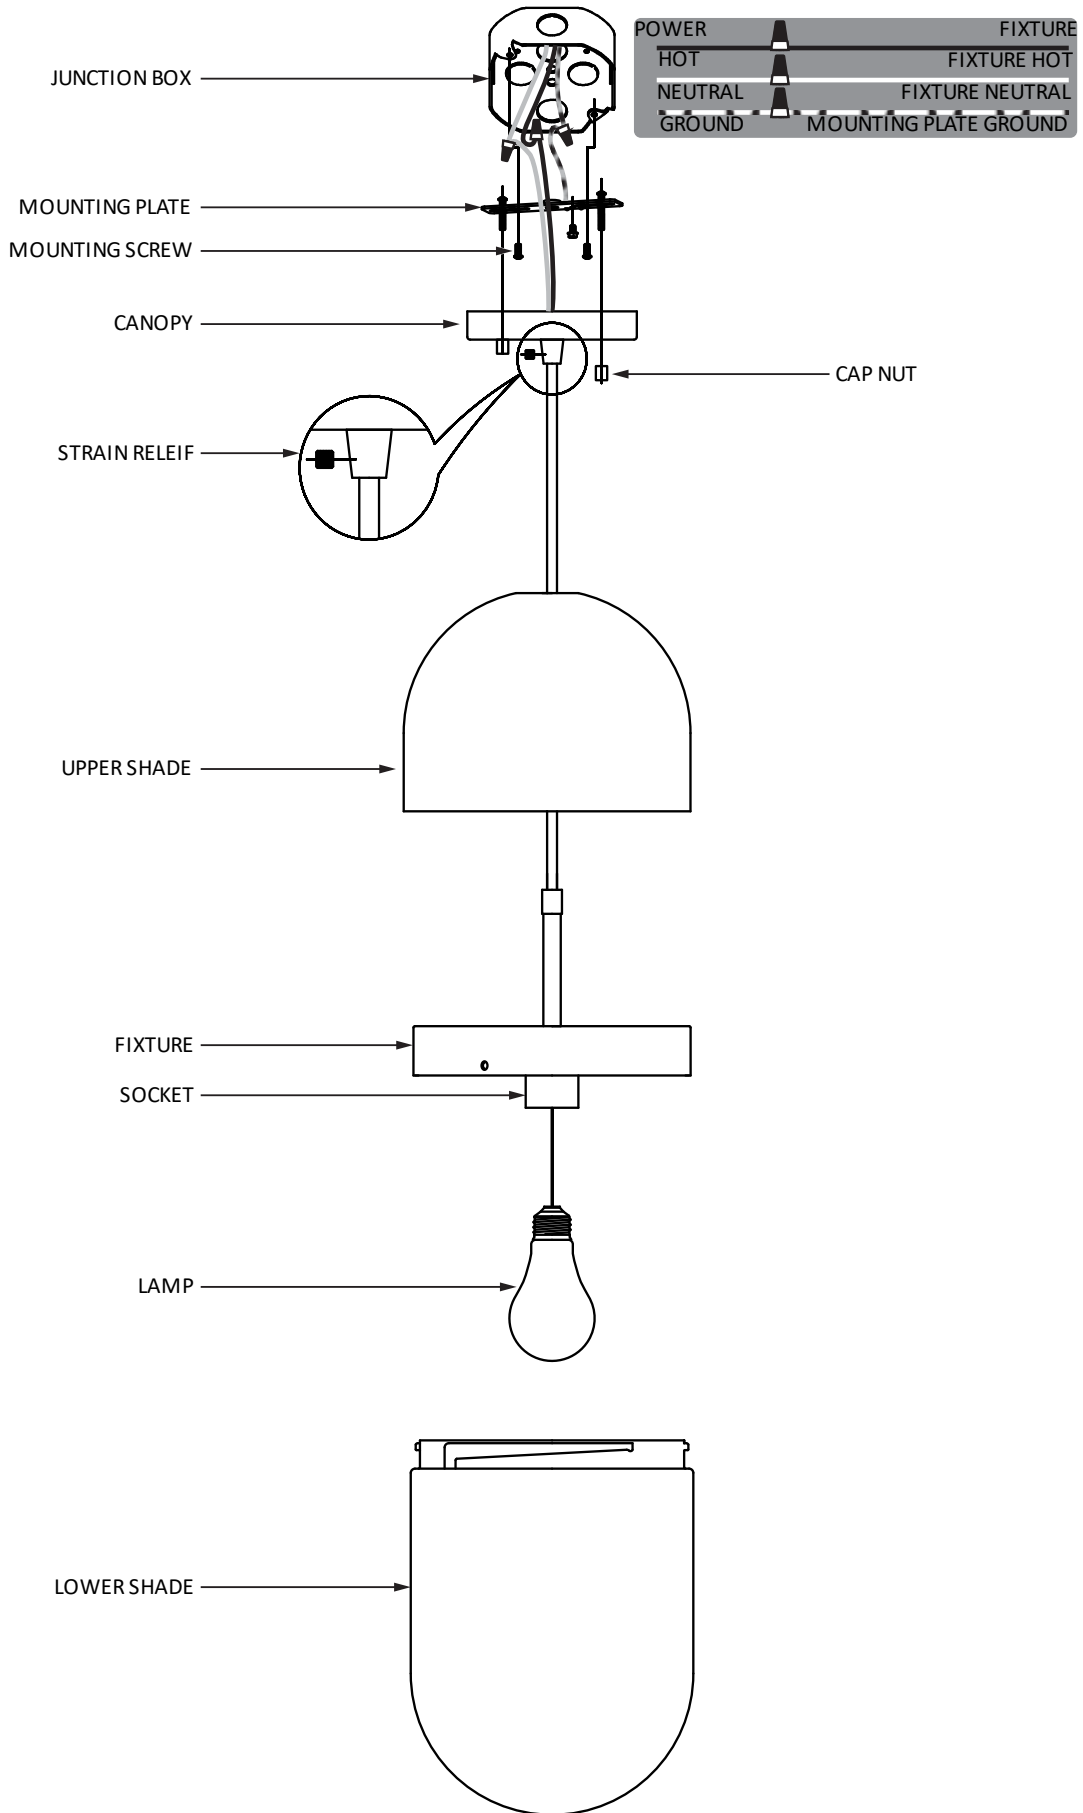

USE MINIMUM 90°C SUPPLY CONDUCTORS.

Turn off electrical current at the source before working with any lighting fixture or portable lamp.

Install and use this product in adherence with local electrical codes and regulations.

INSTRUCTIONS

I. Preparing the Fixture

1. Feed the fixture cord through the strain relief and canopy.
2. Install the mounting plate to the junction box.
3. Place the canopy onto the mounting studs and secure it in place by screwing the cap nuts onto the studs.

II. Wiring the Fixture

5. Separate two sides of molded wire and strip insulation on each to 5/8".
6. Connect the following wires using a wire nut:
 - a) Fixture neutral wire to the junction box neutral wire.
 - b) Fixture hot wire to the supply hot wire.
7. Attach supply grounding wire to the grounding screw. **Note: The fixture must be grounded.**
8. Tuck the wire connections into the junction box.

III. Installing the Fixture

9. Affix the canopy to the junction box and secure with the cap nuts.
10. Tighten the strain relief.
11. Insert light bulbs into the sockets.
12. Screw the lower shade onto the fixture.
