ASSEMBLY INSTRUCTIONS

Circon 5" Mini Pendant

Item # WF5100

NOTICE:

This light fixture should be installed in accordance with all applicable, local installation codes, and by a person familiar with the construction and operation of it, as well as the hazards involved. Inspect item and contents carefully. If any damage or defect is found, do not install. Retain all packaging material until installation is complete and approved.

TOOLS REQUIRED (NOT INCLUDED):

Phillips Screwdriver Slotted Screwdriver Wire Strippers
Wire Cutters

- 1. Carefully remove all parts from the box. Place on a clean, soft surface.
- 2. Remove mounting plate **(B)** and driver **(F)** from canopy **(G)** by removing collar ring **(H)**.
- 3. Feed fixture wire through collar ring **(H)**, canopy **(G)**, driver **(F)** and center of mounting plate **(B)**.
- Adjust fixture wire to desired length then tighten screw (D).
 NOTE: Make sure there is no tension on the electrical wire when fixture is fully extended.
- 5. After fixture height is achieved, secure the fixture wire with a UL knot (see diagram 1).
- 6. Install mounting plate **(B)** to the junction box and secure with mounting screws **(C)**.
- 7. Cut excess wire, being sure to leave enough length to reach the junction box.
- 8. Remove outer housing of wire by making a neat cut all the way around, about 1" from the end. Make sure not to cut too deep or electrical wires could be damaged underneath. Once cut is made, remove and discard the 1" piece of housing off the end, exposing the electrical wires.
- 9. Separate wires, and strip insulation on each 5/8".
