

WARNING!

Be sure electrical power is OFF before and during installation or maintenance.
The luminaire must be installed by a qualified electrician, in accordance with all applicable local codes.

Ensure that the rated luminaire voltage requirements are compatible with the available mains supply in which it will be installed.
All LEDs are included in your lamp. Never touch the LED surface with your bare hands as this may reduce the life of your LED.
Do not alter, relocate or remove any electrical component.

Line: Balance
Family: Table Lamp
Description: Balance Accord Table Lamp 7063

Material: Natural Wood Veneer, MDF and Carbon Steel.
Weight: 1,75Kg / 3,85lbs

ASSEMBLING THE FIXTURE

Read carefully all the Assembly Instructions below, before starting the installation process.

- ① Notice that the fixture is packed separately and dismantled in two separate parts. Remove the protecting package from the pieces taking care to not harm any parts with cutting surfaces or objects. Lay the parts of the fixture on some horizontal surface in order to connect them, if needed use the protecting package to soften the surface and protect the parts from getting scratched or harmed.
- ② Once the protecting packages are removed, connect both parts of the fixture: fit the dome to the metallic support through its superior opening, aligning the holes and fastening the provided screws (S01) to lock the dome in place.
- ③ Finish the fastening of the Philips screws located on the swivel joints base, in order to keep it tight.

Once the dome is assembled and tight, the luminaire is ready

USER GUIDE

Plug the fixture in a proper outlet, using the hand switch to turn the fixture ON/OFF.

The wooden dome which houses the light source is articulated. Hold the dome and rotate it in order to direct the light to the desired spot. Be careful to not exceed the swivel joint's articulation limit so it doesn't break.

It is recommended to use a mini LED bulb (E26 - A15) in this fixture. Due to the dome size a regular bulb size would come out of the dome causing excessive light glare.

PROVIDED SCREWS

S01(2)

ATTENTION!

FAILURE TO COMPLY WITH THESE INSTRUCTIONS MAY CAUSE ACCIDENTS AND LOSS OF PRODUCT WARRANTY.
It's recommended to read these instructions completely and carefully before proceeding.

SAVE THESE INSTRUCTIONS FOR FUTURE REFERENCE.

ACCORD Lighting guarantees coverage against manufacturing defects including electrical components and finishes, for a period of three years, under normal use, from the date of purchase. For warranty service, please contact your local dealer for further instructions. Proof of date of purchase will be required for validation of warranty service.
