

## CARE INSTRUCTIONS

### FRAME/GLASS/LAMINATE

For dusting and light cleaning use a soft, dry cloth. For further cleaning, use a soft cloth that is firmly wrung in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again. If more thorough cleaning is necessary, use a mild liquid soap dissolved in water on a firmly wrung cloth to wipe the frame. Afterwards, repeat the process with clean water as described above.

### MARBLE

For marble maintenance, see the included marble instruction sheet.

### WOOD

For dusting and light cleaning use a clean dry cloth, or a cloth hardly wrung in clean water. Dirty surfaces are cleaned with a hardly wrung cloth out of soapy water or in water with added mild liquid soap. Wipe after with a clean dry cloth.
